would you pls run the traps with State on this potential trip. It is regarding a glyphosate ban in Thailand Agriculture would like Alex to go with them to Thailand to discuss.

Thanks Chad

Tate and Derrick -

Circling back with you on the DVC, our Post has recommended we keep this in-person so our team is working with Alex to find a date that she can travel. It's my understanding that they're looking at the first week in December. Anastasia Bodnar in our office has been communicating directly with Alex so I'll let them continue the coordination. Just wanted to close to the loop. Thanks for your help!

Allie

I believe our team has been talking with Alex Dunne. Undersecretary McKinney is right now slated to attend for USDA and I am not familiar with Ms. Dunne so just wanted to make sure you and the Administrator's office were in the loop on the request since they'd be meeting with Thailand's Minister of Public Health and Minister of Agriculture. It's important for EPA to be there to drive the point that Glyphosate is safe, and U/S McKinney will discuss what the potential impact on trade will be if the MRL were to be set at 0. We can continue discussions with Ms. Dunne if that's your preference - again, just wanting to make sure you were all in the loop since it may gain press attention (it's a very hot topic there).
